Steve,

Fiz o download do digsby e tb instalei ele no facebook e ele nao adicionou o widget automaticamente. Tive que colocalo manualmente no perfil.

Li tambem os termos de uso e a politica de privacidade e ele nao menciona nada sobre essa colocacao automatica no perfil.

Eric,

O digsby se comportou dessa maneira com vc tb?

Ats

Bruno

Eric,

please download digsby.com and install it and add your facebook account. Digsby.com automatically adds a facebook app on your facebook page and they automatically make the facebook app the TOP app and the app which is on the front page ahead of all apps. This is exactly what we need to do.

please look at how they are doing this. make sure that the power app is installed on

we might need to also work with facebook terms and conditions to do this. please study exactly how digsby is doing this so we can learn from them. Facebook is not blocking them.

they are also pulling facebook messenger and doing many things with facebook.

after you look at digsby, let me know.

do you see how to make the app the first app on the profile page?

Steve,

I did the download of digsby, and I also installed it on Facebook, and it did not automatically add the widget. I had to manually put it on the profile.

I also read the terms of use and the privacy policy and it did not mention anything about this automatic placement on the profile.

Eric,

Did Digsby have the same behavior with you as well?

Regards,

Bruno
